

La Grippe Coughs—

Stop those ugly hard la grippe coughs that weaken the system and lower the vital resistance to more serious ailments, by taking **Foley's Honey and Tar**. Some victims of la grippe never fully recover the health of the lungs and the cough that "hangs on" is the cough that threatens.

Foley's Honey and Tar helps from the very first dose. It puts a soothing, healing coating on the inflamed surfaces, relieves the tightness and soreness, raises phlegm easily, and gives comforting feeling of ease and warmth. It is also good for bronchial coughs, troublesome night coughs, tickling throat and hoarseness. Do not accept a substitute.

"I had a stack of pneumonia, both lungs being involved. After recovering somewhat, my lungs failed to 'clear up,' and I suffered severe pain from congestion. I took one bottle of **Foley's Honey and Tar**, and it took all the soreness away and cleared my lungs of the congestion." Yours truly, J. D. Enterkin, Winston, Ga.

"I was sick in bed with LaGrippe and had a very bad cough. I took **Foley's Honey and Tar** and it helped me so much. I kept on and it stopped my cough and I got better. So now I am around the house again. I am 35 years old." Mrs. Mary Kelsey, Spokane, Washington.

ROBT. PAULUS TO

(Continued from page one)

tions and industrial gatherings, as the most effective means of bringing Salem to the attention of the outside world.

Brief verbal reports were made by the heads of departments, all of them showing that while courts had been made, the war activities, the past year had been a check upon all social and civic work. All looked forward to a year of greater results for the club and for the community.

Fred Schmitt, of the Phoenix Northwest Products company, as a representative of the Oregon State Chamber of Commerce, spoke at some length upon the workings of that organization in attractive, astute and astute, and urged that the club send a strong

delegation to represent it in that body. Mentioned Benefits of Bill.

Both Paulus and Schmitt spoke of the benefits that would arise from the Weeks bill now pending, in securing information as to the condition of crops throughout the state.

The regular election of officers was the occasion of fireworks and hilarity and brought surprises to some who had their hearts set upon favorites. It was nip and tuck between... Roth and Paulus for the presidency, and the choice was a matter of subtle psychology, for Roth has been a leading spirit and a veritable hawk worker in the club for years, while Paulus has been looked upon as one of the biggest human factors in building up the industries of this valley. Paulus won by a margin of only two votes, the ballot standing 31 to 29. On motion the election was declared unanimous, though it was manifest that Paulus, who is as busy as a bee now in a fit knot, was honest in his effort to ward off the honor.

In the further nominations, Roth was made vice president, W. M. Hamilton secretary and D. W. Ayre of the U. S. National bank treasurer. L. J. Chapin was re-elected to the department of agriculture, James Wilson for the department of legislation and taxation, Isadore Greenbaum for the social department, R. O. Snelling, civic department and P. E. Fullerton director of publicity department by virtue of his position as King King of the Cherrians.

Mr. Paulus named Fred Schmitt, Theo. Roth and Hal Patton as a committee of three to boost the membership of the club during the coming year, with instructions to make it 600.

HOUSE GETS DOWN

(Continued from page one)

circuit court cannot be present and as the distances are pretty liberal, he may not show up even on the second day. The law says that if he doesn't get there by 4 o'clock of the second day a term is set, the court is automatically adjourned until the next term of court. The bill passed by the house this morning provides that the judge may adjourn court by serving notice in writing.

The highway state commission may transfer money from one fund to another if the bill is finally passed as recommended by the house. It often happens that the commission has a big lot of money in one fund and then is obliged to borrow of the bank for another fund. The law provides that it may shift its money, but that if one fund borrows, it must pay it back.

Refer Salary Bills to Committee. The raise of salary bills for the commissioner of insurance and state superintendent of public instruction were both referred again to the salary committee. This committee had favored a raise of \$600 a year for each officer.

The commissioner of insurance sometimes feels disposed to investigate a company. According to the reading of the present law he does this if he has sufficient reasons to doubt the solvency of the company or is inclined to think it is violating the law. To enable him to investigate under a smoother pretext the house passed a bill this morning eliminating the harsh words and substituting "if the commissioner deems advisable in the interests of the policy holders or for the public good."

Holders of chattel mortgages which have been released should and will be obliged to file a cancellation of record within 20 days after satisfaction, if the bill passed by the house becomes a law.

"Success On All Fronts"

Bolshevik Communique

London, Jan. 29.—(Delayed.)—Continued successes on all fronts were reported in the bolshevik official communique received by wireless from Moscow today.

"In the Archangel region we captured several villages," the communique said. "Forty vessels (364 miles) north-east of Plesetsk we pressed the enemy back to the mouth of the Narovar river (on the Gulf of Finland)."

"On the west front we occupied Grozno."

"On the south front Garkov and Miranovsk were occupied."

"On the Finn front several villages on the left bank of the Kama river were taken."

"Ekaterinobsk was wrested from the Petliurins (followers of General Petliura, commander of the Ukrainian peasant army)."

John Peterson, a well known retired farmer of Umatilla county, died a few days ago in Seattle.

By CAROL S. DIBBLE

A GROUP of prominent visitors in Salem yesterday included a number of well known Portland women, who came to Salem to visit the legislature. Those in the party included Mrs. C. S. Jackson, Mrs. J. B. Montgomery, Mrs. Esther Allen Jones, Mrs. S. L. Albright, Mrs. Mary Barlow Wilkins, Mrs. Robert Farrell and Mrs. John Hall. The guests were joined for the day by Mrs. Isaac Lee Patterson of Salem, the party being entertained as the guests of Mrs. Jackson at the luncheon hour.

Mrs. Jackson, whose husband is publisher of the Oregon Journal, remained over with Mrs. Wilkins as the house guests of Mrs. Patterson at her country home near Eola. Mrs. Wilkins returned home today, while Mrs. Jackson will probably extend her stay to the end of the week.

Another member of the delegation, Mrs. Montgomery, also prolonged her visit to the Capital city, and is being entertained as the guest of Mrs. Ron Sheldon, wife of Representative Sheldon, at her home, 920 Oak street. The remainder of the visiting delegation went back to Portland last evening.

Mr. and Mrs. Will H. Bennett have been entertaining as their guest this week, Mrs. Bennett's sister, Mrs. Charles Bond, of Pendleton. Mr. and Mrs. Bennett are changing their place of residence from 155 North Fourteenth street to 507 Center street, which was the residence of former Governor West during his administration, later being occupied by Mr. and Mrs. G. S. Sargent. Mr. and Mrs. Bennett moved in today.

Mrs. W. W. Banks of Portland is spending a few days with her husband, Senator Banks.

James Chinook of Grants Pass is in Salem on a business trip in connection with the legislature. Mr. and Mrs. Chinook will be well remembered by a host of Salem friends, having made

MEDICINES USED BY MONKS

It is claimed that Monks of ancient days knew of more than three hundred species of medicinal plants used in general for medicines, by these religious orders. While centuries have passed, with all the advance made in medical science, many of our most successful remedies are today made from the roots and herbs of the field, like that good, old fashioned remedy, Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been relieving women from some of the worst forms of female ills, and is now considered the standard remedy.

LENGTHY DISCUSSION

(Continued from page one)

"I want to pay any man a reasonable wage who works for me," he continued.

Insisted It Was Slap.

Senator Hurley insisted that the bill was a slap at the highway commission and was introduced for no other purpose. He ridiculed the statements that have been made that the commission is extravagant in the expenditure of the state's money, and declared such statements came from persons with personal axes to grind.

Denial that the bill cast any reflection upon the commission was made by Senator Lachmund.

"If we pass this bill it will be the same as saying that we do not want the men now on the commission," insisted Senator Smith of Coos.

He declared that the "dollar a year" men, the men of wealth who are working for the public for nothing, have been making good, and that no facts have been presented in connection with the present controversy to show that the highway commission has been extravagant.

Senator Thomas said it was a peculiar thing that when anybody said anything about pavements certain senators always interpreted the remark to be a slap at the highway commission.

"They should not be so infernally sensitive and hysterical about the matter," he said. "The biggest thing we have in this legislature is the \$10,000,000 road bond issue and if we cannot talk about pavements and building highways without being charged with attacking the highway commission we better quit."

Senator Norblad insisted that it took more than a \$4000 a year man to look after a \$10,000,000 a year business, and the state was fortunate in getting the services of men who have made a success of their private affairs.

Others joined in the debate, including Orton, Banks, Patterson, LaFollette, Huston, Jones and Shanks.

Berlin Will Be Capital

Says Chancellor Ebert

Berlin, Jan. 30.—Chancellor Ebert declared today that Berlin will continue as the capital of Germany, to "save the German cause."

Considerable opposition has developed recently against retention of Berlin as the seat of the German government. Practically all the states outside Prussia appeared to favor removal of the capital with the majority opinion evidently in favor of Weimar, where the national assembly will meet.

65TH COAST ARTILLERY BACK

Philadelphia, Jan. 30.—Twenty one hundred bronzed, hilarious doughboys veterans of Pershing's forces, arrived from St. Nazaire aboard the transport Haverford at this port today. The Sixty Fifth coast artillery, almost intact, composed the biggest portion of the soldiers.

"We are Ready for Duty on the Play Line, Mother"

TO MOTHERS! Keep your little pets physically fit, smiling, feeling their best always, by giving Cascarets, the candy cathartic, occasionally. Children love to take Cascarets. They are sweet candy-like tablets, but just wonderful to correct the little white tongue, feverish breath, sour stomach and colds. Cascarets gently "work" the bile, sour fermentations and poisons from a child's tender stomach, liver and bowels without griping or injury. Mothers who depend upon Cascarets as the children's laxative save trouble, worry and cost. Each 10 cent box of Cascarets contains directions and dose for kiddies aged one year old and upwards.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dryness. No struggling for breath at night. Your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

REPORTS ON SENATE

(Continued from page one)

er, which fix the price of fresh salmon each season.

Senator Moser explained that the bill was given careful consideration by the judiciary committee, which recommended that the bill pass. He pointed to the section which exempts farmers' organizations and labor organizations from the provisions of the act.

"There is no danger of farmers or horticulturists entering into a combination in restraint of trade," he said. "They organize for the purpose of getting better prices for their products."

Senate bill 63 was called from the table by Senator Patterson and was

passed by the senate, with but one dissenting vote. It provides that the county high school fund law shall apply to all the counties in the state. Under the provisions of that law, districts which do not have standard high schools are required to levy a tax to pay the tuition of pupils who go from the district to attend school in some other district.

The senate passed house bill 10 which provides that persons holding state coupon bonds, may exchange them for registered bonds.

The senate also passed house bill 89, which relates to the vacation of town plats by the county court or municipal authorities.

Lester Squires, son of Mr. and Mrs. W. E. Squires of Beaverton, is in a hospital at Washington, D. C.

TWO HATS AND A BONNET.

The top hat, which is deep brown velvet, has a bag for a crown cleverly lined with yellow silk and trimmed with applique of beaver cloth chenille edged. Starlight, on one of those blue and cloudless nights was the inspiration for the second hat that is all satin and steel beads. As for babykins, those ermine tails look quite a large responsibility for such a little white fur bonnet. There is a band of black velvet around the bottom and a narrow bit of ribbon to tie it on.

DAILY HEALTH TALKS

URIC ACID IN THE SYSTEM

(By Lee H. Smith, M. D.)

Uric acid is now generally recognized as the cause of more diseases than was heretofore believed. When the kidneys are out of order uric acids accumulate within the body in superabundance. The disordered kidneys do not filter the poisons out of the blood, as they ought to do, and so the poisons remain in the blood and float around until they find a place to lodge in form of uric salts. The thing to remember is that you may have rheumatism in any part of the body—you may have pains anywhere—our back may ache and your head may be dizzy—but the trouble is not where the pain appears. The trouble is in the kidneys, and what is the first thing to do? You must get that excess uric acid out of your system, which can be done by taking Anurie Tablets, the splendid remedy which Dr. Pierce, of Buffalo, N. Y., has put on sale in the drug stores at a low price. Anurie Tablets (made double strength), when taken into the system as medicine, have the peculiar power of dissolving the uric acid deposited there. Drop a bit of sugar or salt into hot water, and it will disappear. In precisely the same way do these Anurie Tablets dissolve uric acid. Of course, after ridding the system of uric acid, it may return again unless you eat the right foods and live the right kind of life, but Dr. Pierce will advise you fully on proper food and correct living if you write and ask him. He makes no charge for such advice. Take Anurie Tablets today, by all means, and get that uric acid out of your system. Don't, don't, don't, put the matter off.
